At EKB, we provide clients with strategic advice on all aspects of local and cross-border M&A, including negotiated acquisitions and divestitures, joint ventures, and strategic alliances.

We pride ourselves on being able to find practical solutions to complex legal and business issues and delivering client-focused advice to help you make the right strategic decision whether you are buying or selling a business.

With a small cohesive group, we can respond quickly and effectively to your transaction, regardless of timing, size, scope, or complexity. If required, we can expand our group to call upon special knowledge and expertise required for your transaction from both within the firm and externally, whether it be securities, tax, competition, or issues of foreign law.

We have worked on everything from local purchases and sales of single location businesses to cross border industry consolidations, in industries ranging from natural resource businesses to food manufacturers to software resellers.
