BIOGRAPHY

As a Chief Operating Officer, Renata works closely with the firm's Partners helping them to assess business operations as well as develop and implement financial solutions that drive growth and increase efficiency.

Renata is a seasoned professional with over 20 years of experience leading complex projects in construction, mining, manufacturing, engineering, and business law industries. Throughout her career she has worked closely with senior leaders to increase brand recognition and profitability by building and motivating teams of highly effective professionals.

With an open-door policy and a strong belief that our success is a direct reflection of our employees and our clients, she is a great addition to the EKB Management Team.
